The following areas of involvement would be totally voluntary and would not obligate the Senator beyond the particular program, etc he or she chooses. The idea is to see who can help the Jaycees get better, We do not wish to take over or do the work that makes members grow, just add a little helping hand and guidance to those who may not understand or be exposed to the Jaycee way of life, growth and excitement that we experienced. If you can do anything at all please volunteer.

Thanks
